Face-to-Face Video Communications

in2px makes remote face-to-face communications instant, simple, secure, and engaging with the integrated 1:1 web video call and conferencing. Designed for SMEs' essential online meeting needs, the integrated video conferencing solution is a lightweight alternative to pricey conferencing equipment, allowing users to stay engaged with geographically dispersed colleagues and customers and achieve faster decision-making.

Open & Integrated Solutions

Besides built-in functionalities, in2pbx integrates seamlessly with third-party systems and technologies such as SIP endpoints, CRM platforms, collaboration tools, and more, delivering a consistent experience with exceptional simplicity and new possibilities. By breaking down boundaries among various systems, it takes an open approach to help customers unleash the true potential of a fully integrated system and uninterrupted business communications.
